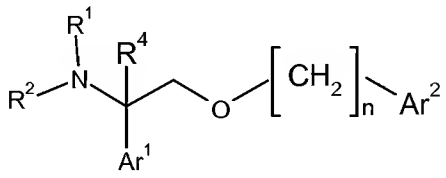
In the Claims

This listing of claims will replace all prior versions and listings of claims in the application.

Listings of claims

1.(original) A compound according to structural diagram I:



I

wherein:

R^1 and R^2 are independently selected from C_{1-6}alkyl or C_{1-6}alkenyl, or together with the N to which they are bound, form a heterocycle containing 6, 7 or 8 atoms or such a heterocycle substituted with moieties independently selected from hydrogen, halogen, C_{1-4}alkyl, C_{1-4}alkoxy or C_{1-4}alkyl substituted with 1, 2 or 3 halo moieties, amino, or amino substituted with C_{1-4}alkyl, C_{1-4}alkoxy or C_{1-4}alkyl, substituted with 0, 1, 2, or 3 halo moieties;

R^4 is hydrogen;

n is 0, 1 or 2;

Ar^1 is phenyl or phenyl substituted with moieties independently selected from hydrogen, halogen, -S-C_{1-4}alkyl, C_{1-4}alkyl, C_{1-4}alkoxy or C_{1-4}alkyl substituted with 1, 2 or 3 halo moieties; and

Ar^2 phenyl, naphthyl, tetralin, or phenyl, naphthyl or tetralin substituted with moieties independently selected from hydrogen, halogen, cyano, nitro, C_{1-4}alkyl, C_{1-4}alkoxy or C_{1-4}alkyl substituted with 1, 2 or 3 halo moieties;

in vivo hydrolysable precursors and pharmaceutically-acceptable salts thereof.

2.(currently amended) [[P]] A pharmaceutically-acceptable salt[[s]] of a compound according to Claim 1 made with an inorganic or organic acid which affords a physiologically-acceptable anion.

3. (currently amended) [[P]] A pharmaceutically-acceptable salt[[s]] of a compound according to Claim 2, wherein said inorganic or organic acid is selected from hydrochloric, hydrobromic, sulfuric, phosphoric, methanesulfonic, sulfamic, para-toluenesulfonic, acetic, citric, lactic, tartaric, malonic, fumaric, ethanesulfonic, benzenesulfonic, cyclohexylsulfamic, salicyclic and quinic acids.

4.(original) A pharmaceutical composition comprising a compound according to Claim 1, an in vivo-hydrolysable precursor or a pharmaceutically-acceptable salt thereof and a pharmaceutically-acceptable carrier.

5.(original) A method of treating a disease condition wherein antagonism of NK_1 receptors in combination with SRI activity is beneficial which method comprises administering to a warm-blooded animal an effective amount of a compound according to Claim 1 or an in vivo-hydrolysable precursor or a pharmaceutically-acceptable salt thereof.

6.(original) A method of treating a disease condition wherein antagonism of NK_1 receptors is beneficial which method comprises administering to a warm-blooded animal an effective amount of a compound according to Claim 1 or an in vivo-hydrolysable precursor or a pharmaceutically-acceptable salt thereof.

7.(original) A method of treating a disease condition wherein SRI activity is beneficial with method comprises administering to a warm-blooded animal an effective amount of a compound according to Claim 1 or a in vivo-hydrolysable precursor or a pharmaceutically-acceptable salt thereof.

8 - 9.(cancelled)

10.(original) A method for treating a disorder or condition selected from hypertension, depression in cancer patients, depression in Parkinson's patients, postmyocardial infarction depression, subsyndromal symptomatic depression, depression in infertile women, pediatric depression, major depression, single episode depression, recurrent depression, child abuse induced depression, post partum depression, generalized anxiety disorder, agoraphobia, social phobia, simple phobias, posttraumatic stress syndrome, avoidant personality disorder, premature ejaculation, anorexia nervosa, bulimia nervosa, obesity, addictions to alcohol, cocaine, heroin, phenobarbital, nicotine or benzodiazepines; cluster headache, migraine, pain, Alzheimer's disease, obsessive-compulsive disorder, panic disorder, dementia, amnestic disorders, age-related cognitive decline, dementia in Parkinson's disease, neuroleptic-induced parkinsonism, tardive dyskinesias, hyperprolactinaemia, vasospasm, cerebral vasculature vasospasm, cerebellar ataxia, gastrointestinal tract disorders, negative symptoms of schizophrenia, premenstrual syndrome, fibromyalgia syndrome, stress incontinence, Tourette's syndrome, trichotillomania, kleptomania, male impotence, attention

deficit hyperactivity disorder, chronic paroxysmal hemicrania and headache associated with vascular disorders in a mammal, wherein antagonism of the NK_1 receptors and SRI activity is beneficial, comprising administering an effective amount of a compound according to Claim 1 or a pharmaceutically-acceptable salt thereof effective in treating such disorder or condition.

11.(currently amended) The method according to ~~any one of Claims 5, 6 or 7~~Claim 5, wherein said compound is administered in combination with a pharmaceutically-acceptable carrier.

12.(new) The method according to Claim 6, wherein said compound is administered in combination with a pharmaceutically-acceptable carrier.

13.(new) The method according to Claim 7, wherein said compound is administered in combination with a pharmaceutically-acceptable carrier.

14.(new) The method according to Claim 10, wherein said compound is administered in combination with a pharmaceutically-acceptable carrier.
